During this first session, students are exposed to the basics of art education. Art history and children's literature will play a major role in introducing the simple, yet necessary, elements of line, shape, color and texture. In Wee Little Arts, students are exposed to a variety of safe, high quality materials, which foster their imaginations to think "outside the box".

We are excited to offer a Monday 4 Plus class. This class will be an hour long and limited to 10 children. The students for this class must be 4 by April 30th of 2015.
