We jump, run, crawl, roll & flip for fun!!

Travelin' Tumblers' is a unique, family-run, comprehensive youth fitness program unlike any other program. We've been educating children about being physically active and healthy for the past 28 years! We will blend core stabilization, balance, cardio, motor skills, flexibility, and strength-building into each class, but let's just call it fun games, music, and activities. The kids won't even realize they're exercising every part of their body! *Travelin' Tumblers* teaches the foundations of movement (tossing, jumping, kicking, inversions, balance, etc.), giving children a greater fitness level and increased confidence.

Our program is a lifestyle exercise program available to children. The benefits are numerous, including increased muscle strength, cardiovascular endurance, flexibility, balance, coordination, and agility. Our classes are also a great way to gain socialization skills, learn how to set goals, and gain awareness for leading a healthy lifestyle. These perks not only help kids stay healthy, but they can be applied to other sports and to life in general.

We place a strong emphasis on safety. Our experienced instructors ensure that all the fun-filled, action-packed activities are age and ability appropriate. Every activity is taught with enthusiasm, patience, and positive reinforcement.

Child development experts know: for preschoolers, building a foundation of skills taught through safe practices, in a fun setting, are far more important than mastery of specific skills, such as cartwheels. This teaching technique will have more long term results. In *Travelin' Tumblers*, skills are used as tools to instill learning attitudes, while skill mastery is a secondary goal. We keep first things first.....kids!

Give your child a wonderful enrichment experience to learn and grow from.

- Patience and Cooperation
- Improved listening skills
- Enhanced neural pathways
- Improved balance, strength, and coordination
- Learn valuable social skills
- Gain self-esteem, confidence, and a "can-do" attitude
- Have a Blast!!
